Sheila, A Little Girl Will Giellich Invents A Game, Let's Play Sandave

Chella Nelson of Minnespolis, a blue-eyed and bres nette young lady of five years whose cherubic face is generously seasoned with freckles, has just invented a game called Let's Play Sunday School." The region for this list of

The region for this bit of the girl contrivants is that Sheila no longer can walk to the Lutheran Church half a block up the hill from her home. And because of sidewalk tumps, it's equally excruciating to get her to her real Sunday school by wheel chair probelled by her mother.

Indeed, she may never be able to make her way again to that house of worship at the top of the hill, a journey's end the seems more unattainable

seems more unattainable each painful, passing day. Sheila today must "make eve" about Sunday school

vere rheumatoid arthritis and feet, cruelly intensified in is the church on the Saddau, to listen to hiblical stories and to scissor paper cut-outs of Noah's supported arthritis clinic in Minneapolis.

Serk "with everything that creepeth upon the earth," to-child beats back her tears and she was just spunky fears.

Child beats back her tears and she was just spunky fears.

Once a week, Mrs. Nelson teacher and the other kills and the other kills and the other kills.

son, her husband and two other that was the one time and school; and if the torsection are often awakened in place where she somehow blost the other 30,000 child was the night by Sheila's outcries somed. If she did have pain of rheumatoid arthritisms although much of the time the then, and that was often so, end.

recent weeks, account for her inability to travel up that hill to church on the Sabbath, to listen to biblical stories and to listen to biblical stories and to supported atheits died in Ministralia.

the Nativity.

Another 30,000 children in across Minneapolis to the March of Dimes-supported Children's and Sheila travel tedious miles

seconing today with March of Chaffres in Sheils and, under the almost astronomical magnification of electron micropandidation propriate gestures the lady was recounting propriate gestures the mother form her knee. For her part, at the clinic, the wholly imaginary and the wholly imaginary and the strength of the child.

Sheils—that arthritis is a dispense that only the old folks get." her mother says, "but the cat doesn't have her lish four arthritis study the cat doesn't have her lish four arthritis her lish four arthritis her lish four arth "but the cat doesn't have her lish four arthritis study of

Two years of caring day and aight for Sheila have taught ther attractive mother that juvenile rheumatoid arthritis is a long way removed from harmless "growing pains." Mrs. Nelson, her husband and two other that was the one time and school; and if the intermediate to go to our think the likely reason for this is that centers and grants are when she was able to go to our if Sheila is to climb the centers and grants are when she was the one time and school; and if the intermediate that was the one time and school; and if the intermediate the shear that the same that the shear that a cross the nation and it is a likely reason for this is that centers and grants are the shear that the shear

Through the exercise ane nation each year are in the same aching predicament as Sheila the answer to which The National Foundation is scientists study any blood secting today with March of Dimes contributions.

"I difficult to believe," says Mrs. Ronald Nelson, the obtiles.

STORM of LIFE "If only I could get out from under, get away from it all, find some island of peace . . ." Like everybody else, we want to escape our problems and pressures. We are seeking calm away from the storm of life. But we can't escape from life. We can't run away from the storm but we can find calm in the storm. When a hurricane sweeps across the countryside, its circling winds lashing out in destruction, there is always in the center, an area of quiet. In the eye of the storm there is Faith is not an escape, a running away into religion. It is THE CHURCH FOR ALL . . finding the presence and ade-ALL FOR THE CHURCH The Church is the greatest factor on quacy of God to face life tricard for the building of character and umphantly. It is finding an inner center of peace while the winds speritzal values. Without a strong Church. blow outside. The Church points the way to peace. It helps us to find the why every person should allend services regularly and support the Church. They are: (1) For his own sake. (2) For his inner experience of faith. "I have found my island . . children's sake. (3) For the sake of his an island of peace in my heart. community and nation. (4) For the sake of the Church itself, which needs his I have found calm . . . the calm of God in the storm of life . . ." moral and material support. ## COUNTY AGENT'S NOTES

O. Q. SWORDS

James Rester, prominent con. munity and civic leader of Rt. 3 Picayune, Mississippi, will direct June Dairy Month activities in Hancock County this year. This annual nation-wide event seeks to increase the sales and consumpfoods.

The dairy industry of the United State is a ten billion dollar industry, the largest single argricultural industry.

The American Dairy Association is spearheading the promotion on a national basis. Forty-nine of the state and many counties and communities will actively support the event which promises to be the year's biggest and most extensive Logue and Nelius Rhodes; Judges, promotion for dairy products. Don Bird and Robert Ladner; Ad-Sixty-five counties in Mississippi vertising and Promotion, Mike standing promotional activities.

Keep the Orchard clean culti- teria vated all during the growing season. Disk shallow to control grass and weeds. This will conserve moisture and plant food. This will help increase size of fruit, total yields and quality of the

TIMBER MANAGEMENT This is a busy season, but farm woodlands need attention as well

as row crops. The most timely forestry practice right now is timber stand improvement. This means getting rid of cull trees and brush, giving more growing room to desirable species of

Your county agent can give you specific instructions for weeding your woodland.

MORE DAIRY PROFITS You can increase the size and productivity of your dairy operation without adding an additional acre or an additional cow. Do it simply by adding silage to your

feed program. An acre of corn is worth 40 percent more as total feed in silage than it is when harvested and put in the crib.

Do better job of feeding This

Artificial breeding will produce cows that can produce more milk. Keep an accurate set of production records so that you can see which cows are making money and which are a "free loader." Keep the profitable high producers and get rid of those that don't pay their way.

## HOME **AGENT'S NOTES**

We are nearing the end of Na tional Home Demonstration Week. The dates this year were April

30 through May 6, 1961. During this week, the Club vomen of Hancock County have told of the Home Demonstration Program and shown its benefits to home, family and community. hroughout the nation nearly 81/2 million women have been telling how home economics extension service helps solve their home and family living problems.

GRASS CUTTING TIME The power mower makes the grass cutting job easier than it used to be. But, unless the one who is pushing the mower is careful, it can result in accidents. The person doing the mowing must follow the rules fully to avoid injury. The rules include:

Mow only during daylight, unless you have good lighting in the yard.

Don't use an electric mower when the grass is wet and slip-Never let youngsters or pets

around the mower. And no one younger than his teens should operate a power mower. When starting the engine, stand with your feet planted in a safe

Always be sure of your footing and balance, especially when you are mowing on an incline. Cut sideways, not up and down, on

hills and banks. Don't put gas in the mower when it's running or still hot from use. Always refuel out of doors. Another safety caution: don't forget to store the gasoline in an approved container.

Shut off the mower before you move it from one level to another, or when you work on its underside. Never leave the mower running when you go in the house, talk to a neighbor or leave it unattended for any rea-
